

TOSHIBA

FORM & LABEL SOLUTION

- > All your shipping documents combined on one smart sheet.
- > Optimise your workflow by reducing manual processes.
- > Saves up to 36% of the processing time.

FORM & LABEL SOLUTION

Toshiba Tec Germany Imaging Systems GmbH is part of a global corporation operating in the technology sector, and due to its creativity and innovation they have been a leader in its field for more than 140 years. We are a leading supplier in the printing technology sector and provide passion for process improvement in various industries. In the age of digitalisation and automation it is key in distribution processes to maintain the dynamics in logistics operations, therefore we created the Form & Label Solution.

What is the Form & Label Solution?

Toshiba has created the Form & Label Solution to improve the shipment process in a logistics environment. Many shipments still require the inclusion of different types of documents and labels. Toshiba's Form and Label Solution allows the automated cohesion of these different documents, all onto one single smart sheet. The clever combination of folding technique and adhesive areas allows you to optimise all print surfaces one label have to offer – making the most of your resources and minimizing waste. As an added value, this special label is printed on a regular laser printer in just one step, making sure that loose documents can no longer be accidentally added to the wrong shipment.

What does the Form & Label Solution offer?

The Form & Label Solution offers a double-sided sheet which combines a form and a label, maximising the information needed through the four variable print locations. The self adhesive Smart Sheet is folded and applied directly to the outside of the box – eliminating the need for a separate plastic document bag.

Key Benefits

- > Improves work efficiency.
- > Reduces working time.
- > Faster shipping & delivery process.
- > Fits all required information onto one smart sheet.
- > Eliminates potential human error.
- > Requires only one laser printer.
- > Simplifies and improves your shipment process.
- > Saves time and significantly reduces plastic waste!
- > Eco-friendly - eliminates the need for a plastic document bag.
